UX Designer
UX Researcher

🌐 https://www.nikoux.com/

Currently based in China, I teach English by day and design intuitive digital experiences by night (and sometimes vice versa). I'm a freelance UX designer with a background in video production from my time as a junior producer in South Africa — storytelling is second nature to me, and it shows up in every wireframe and user journey I create.

PROJECTS

Inner Habit Tracking App   09/2023 - 11/2023
